Filament
Enlighten Your Workday®

Filament: Your Workday® Support Staff Augmentation Solution

Backed by Kognitiv Inc., a leading provider of AMS in the Workday® ecosystem, Filament delivers support and staffing solutions for successful day-to-day Workday® operations, easing the burden on your internal teams.

Pain Points, Solved by Us

Spend Your Budget Wisely

We help you reduce your staffing costs by providing a quality, outsourced option, across all phases of your Workday® lifecycle.

Support, Don't Replace

With the right support backing them, your team can focus on their jobs while our team reduces administrative tasks, maintenance, and operational burden.

Speed Up the Process

Instead of waiting weeks and months to hire the perfect candidate or internal team, we can step in immediately and be flexible to your ongoing support needs.

Support Services for a Smooth and Successful Workday

Staff Augmentation

For project support or general ongoing tier 1 through 3 support, our consultants are available in a full-time or dedicated hour capacity.

Day-to-Day Requests

Internal operational, transactional, and break-fix support. We have experts to act as, or supplement, your internal support team.

Specialized Support

Training, integration monitoring, report clean up, testing, data assistance and clean up. We have experience and expertise to support all specialized needs.
