

D.R.I.V.E

Demographic Rate Intelligence Valuation Engine

Steer Workday benefit rates into automation with real-time cost clarity.

DRIVE provides an easy-to-use toolkit for benefit administrators to securely manage complex age-based rate tables, alongside a personalized dashboard that allows employees to model coverage scenarios and instantly calculate precise insurance premiums by selecting dependents.

Maximize Efficiency & Accuracy for Your Organization

Significant Time Savings

50 to 100 Hours Annually

Automated age-based pricing saves benefit administrators weeks of manual work each cycle.

Error Reduction

100% Validated Data Integrity

Built-in validations catch misconfigurations before payroll, eliminating downstream errors.

Enhanced Employee Trust

Real-Time Cost Visibility

Eliminate year-end surprises and help employees select the perfect coverage with transparent enrollment pricing.

Reduced HR Overhead

Self-Service Simulation

Self-service coverage modeling minimizes open enrollment support tickets.

Key Application Capabilities

- ✓ Age-Based Rate Management
- ✓ Dynamic Cost Simulation
- ✓ Role-Based Secured Dashboards
- ✓ Native Workday Security
