

Tenant Transformation Advisory

Workday® is a flexible solution, designed to adapt to the ever-evolving needs of your complex projects. Whether adding a new module or divesting part of the organization, at Kognitiv, the success of your project is more than simply ensuring the technology is deployed and functioning properly. We want to ensure the desired speed of adoption, and system utilization required to maximize the return on your Workday® investment.

Just like all Kognitiv support, our services are scalable and customizable, to make sure your organization gets the right amount of support:

Full project support includes dedicated Workday® support, change management, and project management resources to make sure that your project is executed as a comprehensive effort.

Architect Only support provides your team with expert resources to scope and solution the project. This model leverages your internal team resources while enhancing their Workday® knowledge by educating them along the way.

We aim to help your businesses compete, collaborate, and grow through:

- ✓ Mergers and Acquisitions
- ✓ Divestitures
- ✓ Compensation or Job Redesign
- ✓ New Tenant SpinOff
- ✓ Security and Workstream Audits
- ✓ Tenant Optimization Projects
- ✓ New Module Implementation
- ✓ Recruiting or Optimization for Rooster
