

Empowering Transformation Amidst Transition

Change is the status quo for organizations and Workday is designed to transform with your business. Kognitiv is ready to support your organizational change and new Workday operating environment. At Kognitiv, we understand the intricacies of Merger, Acquisition, and Divestiture transitions and have crafted - and perfected - a tailored approach to simplify your transition, enabling companies to transform seamlessly.

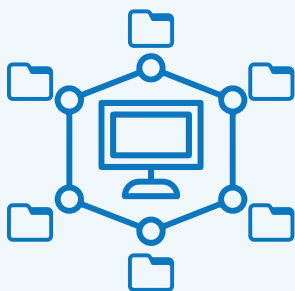

Clone & Purge

Get to go live quickly. Copy the existing tenant, including its full and robust worker history, into a new production environment for your new organization.

Extract Transform Load

Pull configuration from a parent tenant as the starting point for your new tenant deployment.

Big Data Projects

Bring new populations into your Workday environment through efficient and accurate data loads.

Data Extracts from Workday

Tap into the experience of Kognitiv's M & A report catalog, a head start when extracting data from Workday.

Experience the Kognitiv Advantage:
