

Jumpstart your Report Governance with Kognitiv's Reporting Optimization

Is Your Workday Reporting Impacting Tenant Performance?

Reporting can have a detrimental impact on your Workday tenant performance if left unmonitored. Experience more value in your reports with Kognitiv's comprehensive Reporting Optimization services.

Did you know an average report can take up to 5 hours to run? Now you can simplify your Workday Report Governance with our easy-to-use tool to gain a holistic view of your reporting suite faster for more strategic decision-making.

By reducing report run times and streamlining your report catalog, Kognitiv effortlessly enhances your Workday reporting efficiency and user experience with actionable insights to empower your organization to drive continuous improvement.

Receive custom prebuilt reports and actionable worksheets deployed directly to your Workday tenant in less than 2 days! Once the solution is deployed, you will be able to consistently utilize its benefits to continually advance your reporting governance strategies.
